CHILDREN ADJUSTABLE STUDY DESK

Building healthy habits that a child can carry into adulthood can start by providing them with an ergonomic desk. A height adjustable and tilting desktop allows the child to improve posture while doing schoolwork or hobbies like drawing or writing. Ergovida's E201 Adjustable Study Desk stands out in the market by providing features that instill healthy habits and comfort during their formative years.

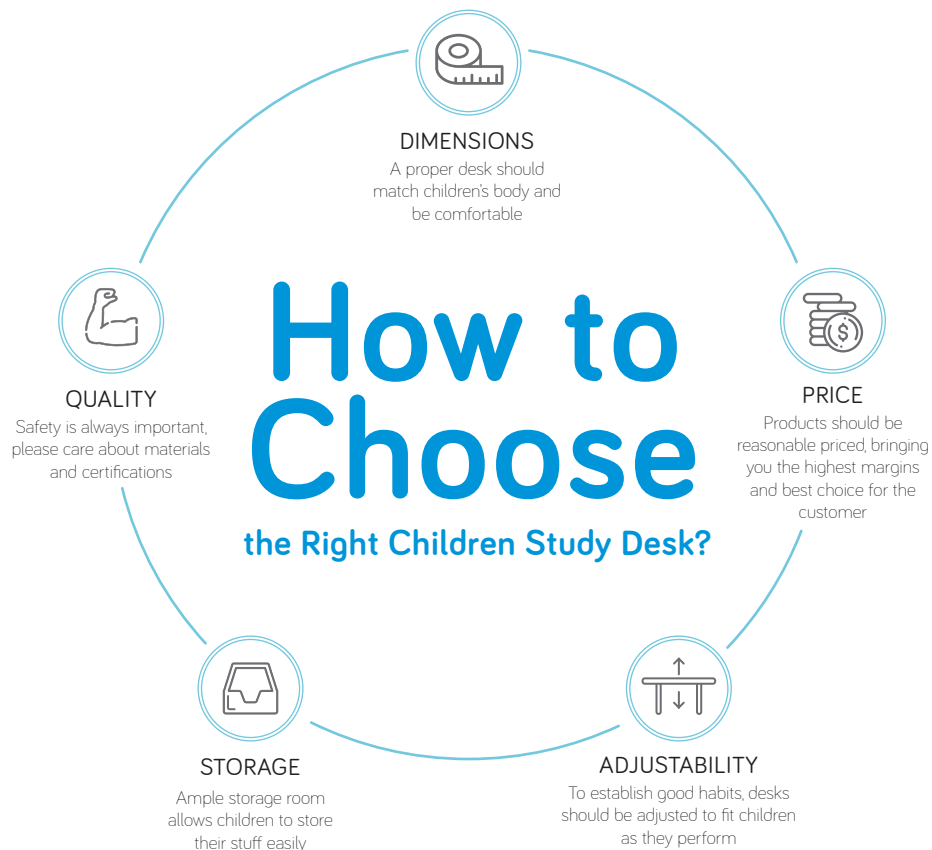

WARRANTY

for a stable foundation
even on uneven surfaces

Safe Materials for Peace of Mind

A white, adjustable desk with a laptop stand and a drawer. The desk has a main rectangular surface and a smaller, elevated section for a laptop. A drawer is located under the main surface. The desk is supported by two legs, one of which has a height adjustment mechanism.

A diagram of a lever system. A horizontal bar (the lever) is supported by a vertical rod (the fulcrum) at its left end. A downward arrow labeled 'Load' is positioned at the right end of the bar. An upward arrow labeled 'Effort' is positioned at the left end of the bar, to the left of the fulcrum. A curved double-headed arrow above the bar indicates its rotational movement.

A diagram of a piston and crank mechanism. The piston is shown at the top of its stroke, with a double-headed vertical arrow indicating its range of motion.

A simple line drawing of a rectangular box with a lid. The lid is slightly raised, and there is a small circle on the front face of the box, possibly representing a handle or a latch.
